

# ROSEBUD CONSERVATION DISTRICT

PO Box 1200, Forsyth, MT 59327 (406) 346-7333  
Bobbi.Vannattan@mt.nacdnet.net Daniel.pratt@usda.gov

Please complete the survey below and return to the Forsyth conservation offices at your earliest convenience. Responses received prior to March 15 will influence our conservation efforts this year.

1. Are you interested in committing time, money, or other resources to address any of the conservation issues below?

Please rank your top 5 concerns (or less) with 1 being the most important to you.

- |   |  |  |
|---|--|--|
| <input type="checkbox"/> wildfire hazards               | <input type="checkbox"/> forest health           | <input type="checkbox"/> water pollution           |
| <input type="checkbox"/> livestock shelter              | <input type="checkbox"/> weeds                   | <input type="checkbox"/> livestock water           |
| <input type="checkbox"/> flooding                       | <input type="checkbox"/> soil fertility          | <input type="checkbox"/> wetlands                  |
| <input type="checkbox"/> loss of agricultural lands     | <input type="checkbox"/> drifted snow            | <input type="checkbox"/> wildlife habitat          |
| <input type="checkbox"/> agricultural sustainability    | <input type="checkbox"/> petroleum pollution     | <input type="checkbox"/> agricultural odors        |
| <input type="checkbox"/> agricultural productivity      | <input type="checkbox"/> biological diversity    | <input type="checkbox"/> aquatic habitat           |
| <input type="checkbox"/> streambank erosion             | <input type="checkbox"/> riparian corridors      | <input type="checkbox"/> grazing land health       |
| <input type="checkbox"/> sediment in surface water      | <input type="checkbox"/> soil erosion            | <input type="checkbox"/> salt affected soils       |
| <input type="checkbox"/> irrigation water use           | <input type="checkbox"/> low soil organic matter | <input type="checkbox"/> soil compaction           |
| <input type="checkbox"/> nutrient pollution             | <input type="checkbox"/> water quality           | <input type="checkbox"/> wind erosion              |
| <input type="checkbox"/> pesticide pollution            | <input type="checkbox"/> storm water management  | <input type="checkbox"/> seasonal high water table |
| <input type="checkbox"/> food production & availability | <input type="checkbox"/> wildlife populations    | <input type="checkbox"/> pollinator habitat        |

2. What do you think the solution is to your highest priority conservation issue?

3. What types of resources could you contribute to addressing these conservation issues?

- |  |   |  |
|--|---|--|
| <input type="checkbox"/> equipment         | <input type="checkbox"/> money                  | <input type="checkbox"/> labor           |
| <input type="checkbox"/> land access       | <input type="checkbox"/> community organization | <input type="checkbox"/> trainer         |
| <input type="checkbox"/> videos            | <input type="checkbox"/> pictures               | <input type="checkbox"/> support letters |
| <input type="checkbox"/> event participant |   |  |

4. Do you want or need assistance so that you can effectively address this resource? What type of assistance would you find helpful? Please rank your preferred mode of assistance with 1 being most preferred.

- |  |  |  |
|--|--|--|
| <input type="checkbox"/> equipment                     | <input type="checkbox"/> money                             | <input type="checkbox"/> labor             |
| <input type="checkbox"/> help videos                   | <input type="checkbox"/> community support                 | <input type="checkbox"/> in-person seminar |
| <input type="checkbox"/> personal technical assistance | <input type="checkbox"/> help articles                     | <input type="checkbox"/> support letters   |
| <input type="checkbox"/> treatment design              | <input type="checkbox"/> list of best management practices |  |

5. Would you seek help from other partners to treat prioritized conservation issues? Who would you partner with?  
Examples: neighbors, irrigation districts, conservation districts, industry groups, state or federal agencies

6. What current conservation or agricultural idea has you most excited today?
