

October 2013 Admin Report

So it seems like we just met☺

The Governor's Range Tour went very well. We had a very positive response from everyone who attended the event. Although the attendance was less than we had hoped for, it was a great success. Steve Lackman & Dave Davenport did a stellar job on their sites. We sent out thank you notes with the DNRC to thank everyone involved in the tour. When things slow down a bit I will put together the report and billing for the Grant.

I did attend the CBMPA representing Rosebud County on September 18th, they were working on their budget and it appears that the money for the entire program will be gone in 2 years because the \$300 that was taken out was not a one time deal and they will take it again and every year until the funds are depleted. They would like to submit a resolution at the area meeting to change the scope of the committee to include oil and gas and all energy production from natural resources. I attempted to help Treasure put together their resolution.

We sent another resolution to the Area IV meeting. I am enclosing a copy in this packet. It is on a mitigation bank.

I will be attending area meeting on Friday September 27, 2013.

I have updated the tree ordering handbook for 2014. Prices are the same however some of the availability has changed slightly. We will also be charged an additional \$25 per order to continue the individual packing that we have done the past three years. I have added the charge to all invoices and in my letter to the producer let them know of the change.

We do have to redesign the shell for our next newsletter, if anyone has any ideas. I will be working on the newsletter the first part of October.
